PROFESSIONAL SUMMARY

Motivated Full-Stack Developer specializing in the MERN stack and modern JavaScript architecture [cite: 5]. Proficient in building smart, responsive web applications and integrating Generative AI features to engineer intelligent, high-performance user solutions [cite: 5]. Strong foundations in asynchronous front-end architectures, data management, and version control [cite: 5]. Currently pursuing an Integrated MCA [cite: 5] and seeking a software development internship to contribute to real-world projects [cite: 5].

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3
Frameworks:	React.js, Node.js, Express.js, Bootstrap
Databases:	MongoDB
AI Engineering:	Prompt Engineering, Generative AI Studio
Tools & Core:	Git, GitHub, VS Code, Terminal, DOM Manipulation, JS Call Stack, Execution Context, Debugging [cite: 5]

TECHNICAL PROJECTS

AI-Powered Fertilizer Management System	JavaScript, Node.js, DeepSeek
- Engineered an intelligent agricultural recommendation engine leveraging Large Language Models to deliver customized crop and soil nutrient solutions [cite: 5]. - Designed and processed structured web endpoints to ensure absolute reliability and precision of AI-driven crop requirements [cite: 5]. - Optimized asynchronous data transformations to handle user requests fluidly and improve overall analytical precision.	
Intelligent Chatbot Interface	JavaScript (ES6+), Node.js, CSS3
- Built a fully responsive real-time conversational interface utilizing Generative AI frameworks to facilitate intelligent multi-turn interactions [cite: 5]. - Implemented advanced asynchronous operations and dynamic DOM updates to manage real-time UI states seamlessly [cite: 5]. - Structured efficient client-side application state handling mechanisms to deliver optimal user interaction flows.	
Simon Says Memory Game	Vanilla JavaScript, HTML5, CSS3
- Developed an interactive sequencing game utilizing complex structural logic to manage state synchronization and level progression [cite: 5]. - Engineered highly fluid, hardware-accelerated CSS animations and responsive grids to deliver optimal visual experiences on cross-platform views [cite: 5]. - Utilized advanced JS Debugging and browser execution breakpoints to optimize rendering timelines and memory retention [cite: 5].	

EDUCATION

IPS Academy	Indore, MP [cite: 5]
<i>Integrated Master of Computer Applications (IMCA) – 7th/8th Semester [cite: 5]</i>	<i>Pursuing [cite: 5]</i>

CERTIFICATIONS & TRAINING

Introduction to Generative AI Studio

May 2026 [cite: 5]

Simplilearn SkillUP (Powered by Google Cloud) | Certificate Code: 10286940 [cite: 5]

- Demonstrated baseline proficiency in deploying and validating foundational configurations within modern Generative AI cloud platforms [cite: 5].

AI Tools Workshop

May 2026 [cite: 5]

be10x Verified Certification [cite: 5]

- Acquired verified technical skill sets to automate data analysis, software code optimization, and rapid system debugging pipelines [cite: 5].

Google Cloud & AI Workshop

Recent

Google Developers Group (GDG) / IPS Academy [cite: 5]

- Engaged in cloud fundamentals and explored standard workflows for integrating generative intelligence models into web engineering architectures [cite: 5].
